

Go Ahead. Reopen Dressing Rooms.

The EMC tergoUV™-Cabinet prevents the spread of pathogens like COVID-19 on clothing and other soft goods. Ideal for **dressing room environments** and **returned merchandise**, the tergoUV-Cabinet uses UV-C light to **disinfect up to 99.9% of germs and viruses** found on soft goods **in 70 seconds**, including COVID-19, with no fabric degradation. Simply hang the clothing in the cabinet, push a button, disinfect and return to the store floor.

Powerful Disinfectant

Disinfect bacteria, viruses and other pathogens, including COVID-19 and influenza, with a 99.9% effectiveness rate.

Fast...Really fast

Complete a disinfection cycle in 35 seconds. Each article of clothing takes just 70 seconds to completely disinfect.

Consistent

Delivers uniform and scientifically proven disinfection with the push of a button.

Electronic Display

A touch screen automates on/off and the magnetic locking safety system, and provides valuable analytics and customization.

Mobile

Equipped with heavy duty casters, it can be easily moved where needed most or to storage when not in use.

Flexible

A versatile disinfecting solution for shopping cart handles, shoes, small electronics and other high touch merchandise.

Product Integrity

Each piece can be disinfected with 30 independent cycles with no change to color, feel or elasticity.

Safety Certified

The tergoUV-Cabinet will be safety certified by a nationally recognized regulatory body.

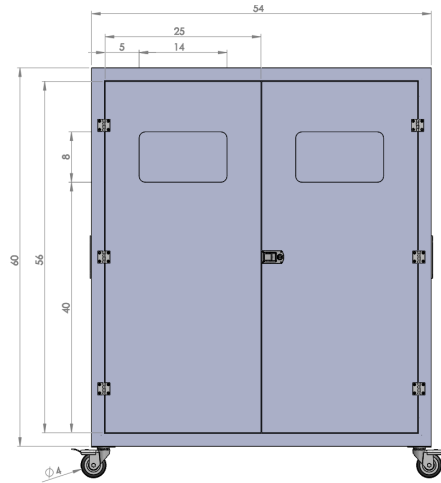

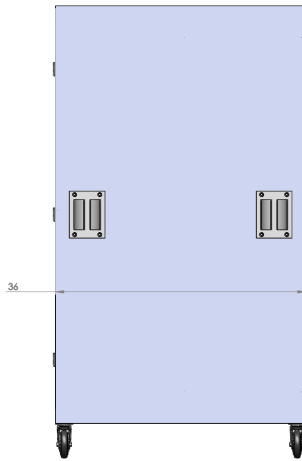

EPA Registered

Registered with the EPA as providers of disinfecting solutions. The cabinet is also deemed environmentally safe in all states.

Spread Light Not Germs

The exterior panels of the tergoUV-Cabinet can be painted or personalized to match your brand and provide the right feel for your dressing room environments.

Specifications

- 54" L x 36" W x 60" H
- Weight – approx. 600lbs
- Input voltage – 120 AC
- UVC Output – 15W/lamp x 10 lamps
- UVC Dosage – 40mJ/cm²
- 0.428 kWh/day; 155 kWh annually

Features

Standard

- Redundant safety systems
 - › Defaults to locked when not in use
