

Xcel Energy Minnesota Bonus Rebate Opportunities

Xcel Energy is offering several bonus rebate opportunities for projects completed by Dec. 5, 2025. With LED conversion rebates being phased out in other markets, this may be your last opportunity to reduce project costs.

Program Specifics

- Brighten up your savings with up to 25% bonus rebates on interior and exterior lighting.
- Enjoy 100% bonus rebates on LED tubes and an extra 50% on screw-in-lamps.
- Invoices between **April 1, 2024 – Oct. 31, 2025 qualify. Applications must be submitted by Dec. 5, 2025.**
- New 25% LED-to-LED Business Lighting Bonus. Invoices dated between **Jan. 1, 2025 – Oct. 31, 2025 qualify. Submit paperwork by Dec. 5, 2025.**

Why You Should Act

- Lamp bans in MN may lead to a phaseout of incentives like you have seen in other markets.
- Rebate budgets are limited.
- Rebates are stackable.

EMC Does the Work

As your turnkey provider, we bring over 20+ years of experience, we are uniquely positioned for:

Determining your eligibility for the incentive program.

Working with Xcel Energy to determine your expected incentive level.

Managing the logistics of your project through completion.

Completing and submitting the paperwork necessary to redeem your incentive payment.

Next Steps

Contact EMC and we'll assess your project for eligibility. If it does qualify, we'll complete and submit the preapproval documentation and start the EnergyMAXX process to take your project to a successful completion.

LEADING THE FUTURE OF LIGHTING + TECHNOLOGY

MAXXimize Your Lighting

EMC's turnkey project management approach, EnergyMAXX®, has helped our customers maximize the results of each project phase—from multisite energy audits to maximizing utility savings with energy rebates and incentives—bringing an immediate and positive impact to their bottom line.
