LEADING THE FUTURE OF
LIGHTING + TECHNOLOGY

Make EMC Your One Call for Lighting, Electrical, Smart Building Controls and EV Service Solutions Management

Quick, reliable service + communication

Dependable emergency support

20+ years serving customers

Since 2003, EMC has led Fortune 500 companies through the LED lighting evolution, completing nearly 100,000 projects and providing planned lighting maintenance, emergency services and warranty management across their facility portfolios.

EMC's lifecycle approach to Lighting + Electrical Service and Warranty Management fits the unique needs of your operations, maximizing the efficiency, effectiveness and life of your lighting, controls, electrical systems and electric vehicle (EV) charging stations.

With rapid and inevitable changes in technology affecting your business and the lighting and controls industry, now is a critical time to establish a long-term relationship with a nationwide service provider who will help you navigate Lighting + Electrical Service.

EMC Service Solutions

On-demand + Break/Fix

Repair or replace lighting and electrical components as requested.

Planned Lighting Maintenance (PLM)

Make costs predictable with a lifecycle approach.

24/7 Emergency

Call directly for immediate service anytime, anywhere.

Take a customized approach that integrates with your business.

Customizable Service Plans

Our data-driven approach to service ensures you realize and understand your Total Cost of Ownership (TCO) to quickly implement and deliver the desired results.

Flexible Communications

EMC works within your facilities request system, whether it's email, ServiceChannel® or any other form of data management.

Nationwide Coverage

Cover all your properties with a single point of contact and ensure consistency across your portfolio.

Warranty Management

EMC handles everything from identifying issues and scheduling labor to coordinating material procurement and managing service agreements.

Contact EMC for a customized warranty solution tailored to meet your organization's needs.
